

DUC Diving B.V.

Footprint 2021

(ton CO₂)

Explanation scopes

Scope 1:

Direct emissions caused by own sources within the organization such as car fuel, gas bottle usage.

Scope 2:

Indirect emissions through use within the organization, but which are generated elsewhere, such as electricity.

Scope 3

Indirect CO₂ emissions caused by business activities of other organizations

What we do to improve our CO₂ footprint:

- Actively stimulate economical driving behaviour
- Change all lights to LED
- Increase zero-emission vehicle park to 40% by 2030
- Use of digital forms
- Cutting down on single use plastics
- Reduce and separate our garbage
