

DUC Diving B.V.

Footprint 2023 Scope 1 & 2

(ton CO₂ / Million Euro)

Explanation scopes

Scope 1:

Direct emissions caused by own sources within the organization such as car fuel, gas bottle usage.

Scope 2:

Indirect emissions through use within the organization, but which are generated elsewhere, such as electricity.

What we do to improve our CO₂ footprint:

- Actively stimulate economical driving behaviour
- Use of 100% LED
- Increase zero-emission vehicle park to 40% by 2030
- Use of digital forms
- Cutting down on single use plastics
- Reduce and separate garbage
- 90% cloud-based services
- 50% renewable energy powers all company halls
